

GEORGE MILESON –ONE- LYRICS

I'M A ROAMING SOUL

Words and music by
George Mileson

I'm a roaming soul
Who cares about it?
I'm a roaming soul,
Who gives a damn?
Right down to the bone
No doubt about it
Straight out vagabond
Straight out tramp

I don't need a map
Why would I bother?
What's the difference if
I miss the way
I just set one foot after another
Nothing's ever too
Far away

CHORUS

And I breath light in the sunrise
And I get soaked in the rain
Life's a free ride
My home lies in any
Wagon train

I'm a roaming soul
I wouldn't hide it
Old Man River knows
What I look for
Ask the sycamore
When it's moonlighted
Ask the summer breeze what it's for

All those people go whining and frowning
Always worried 'bout settling down
But I go around grooving and smiling
I got friends in every town

CHORUS

YOU'LL NEVER BE ALONE

Words and music by
George Mileson

It's hard to believe
There's people on earth
Who could never see
That life is no more
Than a whisper in the air,
a twinkle in the night,
Something you can lose
Quicker than your dreams.

Chorus

You'll never be alone
Every time you need someone
Every time you feel sad
Look inside inside your heart
There you'll see me
Just waiting for you
You'll never be alone
You'll never be alone

You break my heart
Every time I see you cry
When you feel lonely
Remember every word I told you,
Every kiss I gave you
'cause I'll come back for an instant,
I'll take you in my arms
And I'll let you know I'm still alive

Chorus

Please, don't feel sorry for me
I'll wait for you for all eternity.
Wherever you go
Whatever you do
I'll always be here,
Hiding in your heart
Taking care of you
Not letting you cry

Don't think that life
Stops after death
When you leave this world
You'll find another one
And There I'll be waiting for you
From the very start
To be together
All along the way

THE ROAD IS MINE

Words and music by
George Mileson

Elbow on my window rim
Driving through the night
Scattered lights ahead look dim
Crescent moon is bright

Chorus

Not a soul to spoil the trip for me
Not a care to block my mind
The road is mine

This is just the place to be
My old Cadillac
Reving up my memory
Chewing on a snack

Chorus

Not a soul to spoil the trip for me
Not a care to block my mind
The road is mine

Where I'm going, I don't know
Driving on is fine
's long as I can up and go
I don't really mind

Turning up my favourite song
Feeling good inside
Engine roaring nice and strong
That's my kind of ride

Chorus

Not a soul to spoil the trip for me
Not a care to block my mind
The road is mine

DON'T BE SAD

**Words and music by
George Mileson**

Sometimes when I close my eyes
I can see your smile
But my heart feels
That, right now, you aren't with me

I'd like to open my eyes
And just see you there with me
I know that's just a dream
And you're not with me now

CHORUS

Live your life and be happy
Don't be sad, smile and be happy
Live your life and be happy
Don't be sad, smile and be happy

I spoke with my heart
When you left me
And it said to me
Don't worry she's not for you
Now, after all this time
I keep just one memory
Life is to be lived
Don't be sad and be happy

CHORUS

Live your life and be happy
Don't be sad, smile and be happy
Live your life and be happy
Don't be sad, smile and be happy

THEY WILL DANCE FOR YOU

Words and music by
George Mileson

What are you doing? What do you say?
It's a really sunny day
Come on and go out and meet some friends
Walk down the beach and have fun with the sand

CHORUS

Look at the sky and forget all your pain
lie on the grass and look at the birds
Today they will dance for you
Today they will dance for you

What are you doing? Can't you see?
Live each second as if it was the last one
Climb to the highest hill and be free
Let's go sailing and feel the wind

CHORUS

Let yourself go with the music and sing
This song knows what you need
For sure, it knows what you need
For sure, it knows what you need

There're a lot of things to do today
Life gives you a second chance
Don't waste your time staying in bed
Just go out and meet some friends!

There's no reason to quit doing what you want
What do you think about all I'm telling you
Dream and enjoy, and have fun with your friends
But you must think, you live on the earth

CHORUS

Look at the sky and forget all your pain
Lie on the grass and look at the birds
Today they will dance for you
Today they will dance for you

MY LITTLE GIRL

Words and music by
George Mieson

I look in your eyes
Every time I feel sad
I take your hand,
Every time I am lost
I brush your hair
And my heart feels wild
I really know
That our love was love at first sight

CHORUS

You're my little girl and I'll always be by you
You're my little girl and I'll always be with you
You're my little girl and I'll always be by you
You're my little girl and I'll always be with you

You're the only girl
Who makes me feel like I'm alive
Every time you smile
The sun rises high
I would really like
Our love never to die
'Cause I fell in love
With your hair, with your eyes and your smile

CHORUS

You're my little girl and I'll always be by you
You're my little girl and I'll always be with you
You're my little girl and I'll always be by you
You're my little girl and I'll always be with you

I don't know
What the future will bring us
But whatever it is
I'd only wish
For Love to always be
In our lives
It's no big deal
What we did in the past

CHORUS

ALL OF US

Words and music by
George Mileson

Don't think about it
And let your mind dream
Tears, that's one thing
You don't need
Forget the past
And come back
Three are a lot of things here
Waiting for you.

CHORUS

It doesn't matter what you did
Or who you were
Because in the end
All of us, all of us we're the same

If you close your eyes
What can you see?
I'm sure there's
Another world
Where happiness,
Hope and love
Are the only rules to go by

CHORUS

It doesn't matter what you did
or who you were
Because in the end
All of us, all of us we're the same

Don't think about it
And let your soul fly
Towards this world in your mind
Forget the pain in your heart
I've got some love here, Baby
Waiting for you

CHORUS

It doesn't matter what you did
Or who you were
Because in the end
All of us, all of us we're the same

WARS

Words and music by
George Mileson

Every time when I turn on
My TV in the afternoon
I can hear the same kind of news

Hungry people and little children
Fighting to survive
Some people don't have a place to sleep

Countries with stormy places
With a lot of violence
And people fighting every where you go

Countries spending their money
In tanks and weapons and bombs
They just think 'bout destroying their enemies

CHORUS

People crying for their families
People praying for a world in peace
People dreaming of a world without fighting
Free of wars and hunger forever
Free of wars and hunger forever

Then innocent people
Die for other people's decisions
Who only want to win their war

Destroying forests and towns
They only want
To win and to win their war

CHORUS

People crying for their families
People praying for a world in peace
People dreaming of a world without fighting
Free of wars and hunger forever
Free of wars and hunger forever

IN NEED OF YOU

Words and music by
George Mileson

I imagine that your innocence
Protects you from this weather
But it's still raining on me
And I lay on the ground alone,
Only your love could comfort me.

I guess you don't realise
That I pray everyday for you
But God seems to forget my prayers
And I can only rise
Every time I dream we're together.

Chorus

So look at this poor soul
Which is in need of you
And save these lover's dreams
Which can still come true,
They're just like me,
in need of you to live.

I think I'm going insane.
I can't stop thinking of you all the day long
And your eyes are always shining in my mind
Making my feelings stay alive.
You're everything I've ever wanted to have.

I think this love can be mutual
'cause I can see the sweetness in your eyes
And I want to be close to your heart.
So wrap me up with your beauty
and let me be touched by the whisper of your soul

chorus

So look at this poor soul
Which is in need of you
And save these lover's dreams
Which can still come true,
They're just like me,
In need of you to live.

SHE'S YOUR PILLOW

**Words and music by
George Mileson**

During all your life
You'll probably find love
In the heart
Of one or more girls
It's for sure
Love is love
But there's one
Above them all

There's a woman
Who knows you better than anyone
She's the only one
Who's always by you
'Though you may ignore her
She's the one
Who loved you even before you're born

CHORUS

You know who she is
She's your best friend
When you need
Someone to talk to.
You know who she is
She is like your pillow
When you need to cry

Remember when
You were a child
And were learning
To ride a bike
Who picked you up
When you fell
Who encouraged you
To try again

CHORUS

You know who she is
She's your best friend
When you need
Someone to talk to.
You know who she is
She is like your pillow
When you need to cry

THOSE OLD TRUCKS

Words and music by
George Mileson

The night arrives
The sun goes to sleep
The moon will brighten up the fields
People going back home
At the end of a working day
But nothing will be the same

I wanted to forget the past
The highways and the trucks

CHORUS

But those old trucks
Are still in my heart
Running through the highway of my mind
From this side of town
Nothing is like it used to be
And all I had is gone

Sitting in my porch
I think about my life
My last job and my old truck
I'd like to go back
And take a different road
But I can't start again now

I gotta think real fast
I spent a lot of time in the past

CHORUS

Another day begins
I wake up in the country
The sun and the birds wake me up
The silence of the trees
The whisper of the wind
Tell me I'm free like a bird

I'll never be sad again
All men have a second chance

CHORUS
